

# JAY ELLE invites everybody to *Ease Up* and "Take a Holiday"

New York City Americana, Country Pop singer, songwriter, and guitar player, Jay Elle, is inviting everybody to take a break from the world's craziness, and listen to his new EP, *Ease Up*.

The EP was mixed by Grammy nominated engineer/producer Brent Kolatalo (Lady Gaga, John Legend, Lana Del Rey, Ariana Grande, One Republic, etc).

"Uplifting and positive..." *MusicNotez*

"Executed so gracefully and lovingly..." *Xttrawave*

"From conception to execution and production aesthetics, this EP is a true gem..." *Thebandcampdiaries*

"Great writing, melody, outstanding groove, excellent recording..." *Jamsphere*

"Jay Elle's voice is absolutely delicious, and so soothing..." *Indiepulsemusic*

I wrote the single, "Ease Up (Into Love)", to remind us to have faith that good things will happen in time.

We might be getting used to immediate gratification and everything delivered to our doorsteps on the day we order it. But, some things can take a little longer to come our way. Especially, when it involves people and love.

The song "Take a Holiday" invites listeners to take a break from the world. We can become different individuals when we are overwhelmed by the stress in our daily lives, work, responsibilities, when we react to the news. That's not always fun for ourselves and the people around us.

"Mature musicality, youthful vocals, dreamy cotton cords, gentle masculinity, and easy flow..."
