### **Verse 1:**

She takes her own sweet time  
You just have to wait 'till she says it's time  
Says it's time  
You'll get the nod when she's good and ready  
Hang on tight, hold on steady

### **Chorus 1:**

'Cause it's just the name of the game  
To get close to that flame  
She will let you know when she feels the same  
You could try anything  
Be the better plaything  
Don't go broke on a ring  
She's on her own sweet time  
Own sweet time

### **Verse 2:**

If you think she's worth the wait  
You'll just have to play it cool while you wait  
While you wait  
You'll get the nod when she's good and ready  
Hang on tight, hold on steady

**Chorus 2:**

'Cause it's just the name of the game  
To get close to that flame  
She will let you know when she feels the same  
You could try anything  
Be the better plaything  
Don't go broke on a ring  
She's on her own sweet time  
Own sweet time

**Bridge:**

She's taking it easy  
Playing it lazy  
Pretending she's busy  
While you're going crazy

**Chorus 3:**

'Cause it's just the name of the game  
To get close to that flame  
She will let you know when she feels the same  
It's the name of the game  
You could try anything  
Be the better plaything  
Don't go broke on a ring  
She's on her own sweet time  
Own sweet time  
Own sweet time
